

Steps for Donating

1. **Find a local emergency food provider in your area.**

Food banks and pantries, shelters, and meal services may all use fresh produce. To find an organization in your county visit <http://growandgivecolorado.org/>

2. **Grow and safely harvest your produce.**

Take pictures of your bounty! Try to donate soon after your harvest.

3. **Weigh your harvest.**

A bathroom scale works well. Hand-held luggage scales are affordable and easy to use. Record the weight.

4. **Attach a Grow and Give label to your donation.**

Labels are provided to those registered. Contact growandgive@colostate.edu if you need labels.

5. **Deliver your produce.**

Remind the person receiving the produce that it has not been washed.

6. **Report your donation to the Grow and Give program.**

Go to <http://growandgivecolorado.org> /to locate the online "Produce Donation Form."

Thanks for growing to give!
